

# Asteroids!

## Objective:

Hit the **asteroids** with your ship's **blasters**.

## Intro:

Look out! Space rocks! You have wandered into an **asteroid field** and the hunks of metal and rock will destroy your ship unless you can knock them away somehow. Good thing your ship has a **blaster** for just such an occasion.

## How To?

**Step 1:** Load your blaster.

**Step 2:** Hit each of the asteroids that have come into view.

**Step 3:** Safe the day.
